## To whom it may concern

Mr. Muhammad Rashid has been my student at this university for two years in the MS Computer Science degree. He has studied one course Advanced Topics in Computer Architecture with me and obtained a good grade in the course. During this period, I have found him honest and hardworking student. He has the capabilities to solve the problem professionally. His analytical skills are good.

English is the medium of instruction and evaluation at this university. Mr. Muhammad Rashid has no problem in expressing himself in English language.

I strongly recommend him for higher studies that match his qualifications and experiences.

I wish him all the best in his future endeavors.

Should I provide any further information, please let me know
